

Invest for children 2022

Understanding Diversity and Working Towards Integration

Who We Are

Invest for children (i4c) is a nonprofit international organization committed to improving a better quality of life for less abled children and youth..

i4c is focused specially on Southern Europe.

The mission of i4c is to provide support to less abled or people with special needs, working directly with individuals and their families. We also collaborate with other foundations and institutions working towards the same goal.

Audited by 

Our Goals

Invest for children's main aim is to achieve a better quality of life for people with learning disabilities. Our goals:

To increase social awareness about integration of people with learning disabilities

To help other foundations generate recurrent revenues to achieve their goals

To develop innovative marketing, financial and management tools for foundations

To support projects of social and work placement integration for people with learning disabilities

Strong relationship with key partners to develop projects in specific areas to promote social integration

Goal

- To help people with learning disabilities to have a better social integration through sport
- <https://www.specialolympics.es/>

Partner

- i4c introduces paddle in the Special Olympics Spain sports offer.
- i4c sponsored the National Special Olympics Games in Reus (Spain).
- i4c and Laureus have given support to the Spanish team for the Special Olympics Summer Games in Shanghai

Our support

- Development of paddle schools where athletes can train and compete.
- More than 1,500 athletes, coming from Spain, many European countries, Morocco and China, participated in this edition.
- i4c published the book *Shanghai Special Olympics Games*.

Our Projects- Supported Employment

Goal

- To help people with learning disabilities to have a better social integration through employment, by using the “Supported Employment” Methodology applied by Aura Foundation.
- www.aurafundacio.org

Partner

- Aura Foundation, the first program of Supported Employment in Spain, pioneer in the development and installment of this methodology. More than 300 people have been attended in Aura Foundation.

Our support

- i4c has helped Aura Fundació to establish a new office in Barcelona and collaborates in the Corporate Governance tasks and offers financial support in order to promote employment inclusion.

Goal

- To improve work placement integration of people with learning disabilities and reward their daily efforts and personal improvement through continuous training and maintaining their commitment to their employers.
- www.aurafundacio.org

Partner

- i4c has developed a project for 25 employees with intellectual disabilities to benefit from a CaixaBank savings plan at the time of their retirement.

Our support

- i4c has donated savings plans to employees with Down's Syndrome to promote the permanence at the work place.

Goal

- The aim is to get both national and international companies to join in the employment integration of people with disabilities. This collaboration in the UK has been carried out together with Team Domenica. www.teamdomenica.com

Partner

- Based in central Brighton, Team Domenica operates through a unique three tier set-up of Training Centre, Training Café (Café Domenica) and Employment Agency. Through this they provide employment programmes set up to help prepare candidates for the workplace, access employment, make new friends, and feel better connected to their local community.

Our Support

- i4c sponsors the programme “Wrap Around” with the aim to promote work place solutions for people with Down’s Syndrome in UK. The candidates with a paid job receive weekly support thanks to this programme.

Our Projects- Health: Sloan-Kettering

Goal

- To help children with eye cancer to receive a better treatment. This research has been carried out at the Memorial Sloan-Kettering Cancer Center of Newy York.
- <https://www.mskcc.org>

Partner

- The **Memorial Sloan-Kettering Cancer Center** is the oldest and largest private institution committed to exceptional patient care, leading-edge research, and superb educational programs.

Our support

- Invest for children has promoted a research lead by Dr. Abramson (photo), and free material for patients to complement their treatments. The new treatment has lead to progress from removing 95% of affected eyes to saving 95% of treated eyes.

Goal

- To contribute to the scientific research on neuroendocrine cancer at the Uppsala University <https://www.uu.se>

Partner

- Uppsala University is the oldest education institution in Scandinavia. It is constantly classified among the best Universities in Europe as one of the most prestigious.

Our Support

Invest for children has supported a research on new biomarkers sensible to early diagnosis and a better classification of the neuroendocrine tumours at the Medicine Department.

Goal

- The SJD Pediatric Cancer Center Barcelona, a pioneering paediatric oncology center in Europe and one of the largest in the world, is already in construction.
<https://www.paralosvalientes.com>

Partner

- San Juan de Dios manages 225 hospitals throughout the world, being the one in Barcelona one of the most modern and efficient children's hospitals in the world.

Our Support

- Invest for children supports the SJD Paediatric Cancer Center Barcelona, which is expected to open in early 2022..

Goal

- The main aim to collaborate with Hospital Sant Joan de Déu of Barcelona is to help patients to have a better quality of life by using modern and sophisticated medical equipment.

Partner

- San Juan de Dios manages 225 hospitals throughout the world, with the San Juan de Dios of Barcelona being considered one of the most modern and efficient children's hospitals in the world.

Our Support

- Invest for children has made contributions to acquire sophisticated respiratory equipment for children staying at the Hospital, and to support a research project on non invasive ventilation in paediatrics.
